

Women's Technical Committee Update

Adult British Championships

Following the success of the 2023 Adult Gymnastics British Championships and the positive increase in the number of entries across the disciplines especially in Women's Artistic; To ensure we comply with the Healthy and Safety requirements of the venue and to ultimately provide a positive experience for all in attendance, we will be capping the Women's Artistic entries, and confirm in advance that the competition will start on Friday 2nd August at lunchtime.

The maximum number of Women's Artistic competitors we are able to accept is dependent upon our maximum capacity to deliver six subdivisions of competition within the available time period. Following the entry closing deadline on the 21st of June, the complete and submitted entries will be reviewed, and following the allocation of competitors and categories into these six subdivisions (with preference to the earliest submitted entries), it may be that entries into certain Women's Artistic categories will be declined due to this capacity limitation. A reserve list will be created based on the date the entry was completed, and reserves will be invited up to Thursday 1st August at 15:00hrs upon clubs notifying the Events Team of any withdrawals.

Unfortunately, until the entries have closed on 21st June at midday and numbers are known within each competition category we will be unable to confirm the format for the event until Friday 28th June, which will then be communicated to all clubs who have completed an entry.

Please ensure all entries are submitted by the deadline, entry for the Women's Artistic competitions will be confirmed once the entry deadline has passed. Clubs with competitors on the reserve list that do not compete will have the entry fee refunded.
