## Frequently Asked Questions

### **Do I need to purchase a ticket?**

This is a non-spectator event; tickets will not be available to purchase.

### **Where do I go when I arrive?**

From the main car park, walk up towards the archway with a statue of a lion either side. Just before the arch, turn left to enter the building where the testing will take place. Registration will be in the bar area on the right. The bar area will also serve as the holding area for gymnasts, coaches and parents/guardians.

### **Where do I meet the coaches/ collect gymnasts?**

Parents/guardians should arrange meeting point with their lead coach prior to arriving at the event.

## Covid-19 Frequently Asked Questions

### **Do I need to complete a COVID-19 test prior to attending?**

Testing is not required to attend, however all attendees, participants, officials and spectators, should be aware of the increased risks associated with attending an event, and make a judgement based upon their individual circumstances relative to the risk of attendance.

Despite the lifting of all Government restrictions in a move to the 'Living with COVID' plan, event attendance still has an inherently higher risk of transmission and contraction of the Coronavirus (COVID-19). In a bid to keep gymnasts, coaches and officials as safe as possible we would ask that if you have tested positive for COVID 19 or are displaying symptoms that you stay at home.
