Describe how your personality, experience and skill-set support your nomination as TC Chair

Gymnastics for people with a disability is so very important to me. In so many ways of life these people are refused access to services they would like to pursue but in gymnastics we can offer the chance to achieve and participate in a wonderful sport. I have produced 2 gymnasts to international standard and now one gymnast representing GB in the Special Olympics World Games in Los Angeles in July 2015.

What does success look like at the end of your three year term in office? Outline how you would drive this discipline forward?

This is very difficult to specify in view of the changes about to happen in April 2015. I would hope that after a 3 year term I would be happy with how the new arrangements are working, and that disability gymnasts are fully included in regional, national and international events. This change cannot be allowed to exclude disability gymnasts and we must work hard to make it succeed. I would wish to support any TC chairs that asked for help/guidance in how to deal with the changes.;
